All surface agents meet the final biodegradability criteria in accordance with Detergent Regulation (EC) No 648/2004.

- compound of plant-based surface agent, rinsing activator and corrosion inhibitor
- takes off and dilutes the deposits of products in the tank, pipes, filters, booms, nozzles
- no more risk of clogging your nozzles guaranteeing a uniform spray
- eliminates phytotoxicity accidents when changing products

Cleaning sprayers equipped with a washing head

- Fill the tank with water to about 10% of its capacity.
- Add 3 to 5% of PULVÉ-PROPRE.
- Start the agitator and circulate the mixture into the Booms.
- Operate the rinsing system for 15 minutes.
- Drain the sprayer and rinse thoroughly until clear water comes out of the nozzle.
- Filters and nozzles can be disassembled and immersed separately in a water bath containing 5% PULVÉ-PROPRE. Rinse carefully

Cleaning sprayers without nozzle or wash head

- Prepare a 5% solution of PULVÉ-PROPRE in water.
- Spray manually this dilution of PULVÉ-PROPRE on the internal walls.
- Leave for 10 to 15 minutes.
- Rinse thoroughly until clear water comes out of the nozzle.

Ref: 733086
